Graduate School Holds Meeting to Review Draft MOA for New Master's Program in Integrated Healthcare Management and Business Innovation

On 9 October 2026, the Graduate School, Burapha University, held the 1st Meeting of 2026 to review the draft Memorandum of Agreement (MOA) on the management of the new Master of Science Program in Integrated Healthcare Management and Business Innovation (B.E. 2570). The meeting was held in a hybrid format at Room QS1-200, Graduate School Office, with participants attending both in person and online via Zoom.

This meeting followed earlier consultative discussions in which the Graduate School collaborated with four faculties—the Faculty of Allied Health Sciences, the International College, the Faculty of Public Health, and the Faculty of Logistics

Key discussions focused on reviewing the draft MOA, particularly the compensation arrangements and revenue-sharing mechanisms. In light of changes to the roles and levels of participation of the respective units from those initially discussed, participants emphasized the importance of revisiting the proposed revenue distribution and allocation arrangements to ensure that they align with the actual operational responsibilities of each unit.
